

EUROPE'S ICT PARTNERSHIP WITH AUSTRALIA, SINGAPORE & NEW ZEALAND

WHAT'S EPIC ON EPIC?

Australia, Singapore and New Zealand are traditionally strong economic partners for **Europe**. The European-Pacific Partnership for ICT collaboration in research, development and innovation ("EPIC") aims to strengthen the ties between these regions through **academic, industrial, and political partnerships**. EPIC is aimed at researchers and experts in the **ICT** field with a special focus on: European Digital Single Market, Artificial Intelligence, Cyber Security, Internet of Things, ICT in Transport, Digital Economy, Next Generation Internet and Spatial Intelligence.

THE EPIC BENEFITS

Get in touch with researchers from strong ICT-based economies.

Discuss situation for future research cooperation.

Discover funding sources for your projects.

Raise international awareness of your ICT issues.

Get advice and support in finding the right partners.

TURN THE PAGE AND FLY WITH EPIC ON YOUR NEXT RESEARCH TRIP!

EUROPE'S ICT PARTNERSHIP WITH AUSTRALIA, SINGAPORE & NEW ZEALAND

THE EPIC EXPERT VISITS

Join our **exchange programme**: EPIC organises expert visits and trips to **explore** the potential of **joint RTD cooperation in current ICT areas**. You can either travel from the EU to one of the partner countries of the Asia-Pacific region or vice versa. We address scientists, researchers and innovators from the EU or Australia, Singapore and New Zealand with concrete ideas for international ICT cooperation and potential partners.

THE EPIC PARTNERS
